the  living collection

Adding a conservatory to your property is the simplest way to create additional living space.

This leaflet is here to help you when it comes down to choosing your style of conservatory, helping to make your dream become a reality.

The products shown within this guide are supplied by K2 Conservatories - one of the UK's largest suppliers of advanced, fully sculptured PVCu and aluminium conservatory systems. K2's products, which are utilised by installers nationwide, meet BSI standards and are BBA accredited, widely recognised as the construction industry's benchmark.

gable

This increasingly popular design enjoys an imposing front elevation, delivering a feeling of height and space.

As a result, the Gable adds a real sense of presence to any home - even older, period properties.

If you're looking for a conservatory that takes your breath away every time you look at it, then this is definitely the style for you!

decorative trim

Enhance and personalise the internal look of your conservatory by using decorative trims.

The wide range of colours and styles allows maximum design flexibility.

celsius glass

Celsius is a range of high performance glass engineered and designed for conservatories. The perfect addition to your new room, allowing year round use, offering increased solar protection and heat insulation.

your conservatory

bespoke

What if you want a conservatory design that is unique to you? A style outside of those mentioned so far?

No problem.

We have the ability to produce totally bespoke conservatories based on your own particular needs and designs.

Whether a particularly large span construction or a conservatory that is based on unusual dimensions due to the nature of the site, simply ask your sales advisor, and if we can realise your dream... we will.

georgian

The Georgian conservatory, also known as the Edwardian, is characterised by its square or rectangular footprint.

This means they are incredibly space efficient - allowing you to achieve the maximum possible floor area, with increased furnishing options.

The Georgian conservatory isn't just about function. It is a stylish choice that will suit many contemporary homes with its clear, strong lines. Often at its best with a brick dwarf wall.

victorian

The Victorian is one of the most popular conservatory styles.

These conservatories are generally adorned with the traditional cresting and finials. They are versatile both in terms of size and practicality.

They will complement almost any style of property and can be readily adapted to suit whatever space is available – whether a large garden or a small patio area.

Typically Victorian conservatories have a three or five facet bay.

sunrooms

Maybe you're looking for something a little less ornate. Perhaps you live in a bungalow or a house with low eaves.

Either way, a Sunroom or low pitch conservatory equates to the perfect design solution.

Sometimes referred to as a Mediterranean, Lean-to or Studio room, this style enjoys crisp, clean lines and has a truly modern feel.
